## HAIL, RAIN AND WIND

Do Considerable Damage in This Portion of the State.

## GREEN RIVER OUT OF ITS BANKS

Windows broken in coaches when the M. H. & E. passenger train pulled in Earlington yards Saturday evening there were found 32 windows broken in one coach. This was done by a severe hail storm at Breeman, Ky. The hail was so large and fell with such velocity on account of a high wind that the engineer was compelled to stop his train until the storm closed. The heavy rainfall Saturday night and Sunday washed away a portion of the I. C. road bed between Dakoven and Sturgis, and caused considerable delay to traffic.

The principal damage has been done along the Green River Valley where the rise has been sudden and destructive. People have moved out of the Panther creek neighborhood near Owensboro. The river stands 28 feet and will go to 31 feet. If the rainfall continues the likelihood of a serious freshet is sufficient to cause alarm. Lowland farmers will undoubtedly be delayed with their corn crops, since there can be no planting for several weeks in the flooded acres. There are thousands of acres which will be inundated when the 30-foot mark is reached. Lowland wheat will also be hurt, especially if warm, bright days accompany the decline of the water. This will "cook" the fields which are covered by the flood. There will be much damage along White, Patoka and Wabash rivers as they are all booming.

After working from Saturday night until 11 o'clock yesterday morning the big landslide on the L. H. & St. L. railroad one and half miles east of Hawesville, Ky., was removed and traffic was resumed between Louisville and Evansville. Passenger train No. 4 on the "Texas" was annulled Saturday night because of the landslide near Hawesville. The officials of the road at Louisville were advised that the landslide had happened and the train was not run out of Louisville. All trains on the railroads were operated on schedule time yesterday. The Southern had trouble near Booneville but did not stop trains.

At Runsey, Ky., the river stage Lock No. 2 is at flood height and rising rapidly. The lock walls are submerged and water is rapidly rising over the low ground. Since Friday there has been 2.83 inches rainfall at that point and farmers in that section are preparing for the rise that will follow the precipitation predicted by the weather bureau and will not be caught unawares.

Reports from Bowling Green, Ky., are that there has been 2.83 inches of rainfall there and Green river is rising fast. The river registered 12 feet there. It was still raining at Bowling Green last night.

## HAYWOOD

Of Murder Trial Fame Urges National Wide Strike.

William D. Haywood, acquitted of complicity in the murder of former Gov. Steunenburg, of Idaho, urged a nation-wide strike on the day the McNamara brothers are brought to trial on charges of having dynamited the Los Angeles Times' building.

## AGED CITIZEN

Of the Richland Country Passes Away—Was a Brother of Mrs. E. R. McEuen of This City.

Edward McGary, an aged citizen of the Richland country and well known in this city, passed away at his home Monday morning. Mr. McGary was an ex-confederate soldier and a life long member of the Richland Baptist church. He had been in ill health for the past five years. He leaves a wife and four sons, James, Will, Tom and Jessie and one sister Mrs. E. R. McEuen of this place. Funeral services were held at Pleasant view today at one o'clock and he was laid away in the presence of a large number of friends and relatives and neighbors.

## ECHO OF TOBACCO RAID

Alleged Hopkinsville Night Riders Defendants in Suit.

Owensboro, Ky., April 30.—The May term of United States Court convenes here in the morning. Judge Evans and the other court officials arrived tonight from Louisville.

The most important case on the docket is that of Mrs. Elsie Gaylor Latham, of New York, against the city of Hopkinsville and a number of alleged night riders as a result of the raid on Hopkinsville when the Latham tobacco factory was destroyed by fire. Senator Bradley is here as counsel for Mrs. Latham and is ready for a trial. Scores of witnesses are also here in the cases.

Our Carlstedt's German Liver Powder acts on the Liver, the real cause of constipation—a few doses entirely remove the trouble—insure a lasting cure—never fails—guaranteed—if you have headaches, get a bottle today from the St. Bernard Mining Co., Incorporated, Drug Department. 25c a bottle.

## Earlington Defeated.

In the game of ball between the Earlington Athletic Club and the Dawson High school, at Dawson Saturday, the latter team won by a score of 8 to 1.

It was a fast game throughout, the nine innings being played in one hour and eighteen minutes. Swindly, for Dawson, pitched fine ball, only seven hits being allowed Earlington. Mitchell, for Earlington, pitched excellent ball except in the third inning when nine safe hits and two wild throws gave Dawson eight runs.

## Conditions in Canton Desperate.

Conditions in Canton are reported desperate. There are 80,000 soldiers within the walls and it is feared many will join the rebels if they seem to be getting the upper hand. Thirty rebels who were barricaded in a store were burned to death and others committed suicide, the troops having set fire to the building.

## No More Dyspepsia.

Gas, or other Stomach Troubles. Nothing will remain undigested or sour on your stomach if you will take a little Digestez, a powerful digestive, harmless and pleasant as Maple Syrup. For sale by the drug department of the St. Bernard Mining Company, Incorporated.

## BARN BURNING

At Brandenburg—Night Riders Charged With Incendiary Fire.

Brandenburg, Ky., April 29.—The large tobacco barn of George Meador, containing a crop of 20,000 pounds of tobacco, was destroyed by fire at an early hour this morning and everything indicates that it was the work of incendiaries. Meador's horses having been turned loose before the structure was set ablaze.

Four weeks ago it is said every farmer of the Milan section received through his mail box a warning as follows:

"We warn you to destroy your tobacco beds or abide the consequences. Keep your mouth shut and do as told or you will be sorry."

Two matches were attached to each of the warning cards.

Meador had fifteen hogs in his barn, but today he is unable to locate more than four of them.

Bullets Whiz at Lodge Meeting in Compton, Ky.

Campton, Ky., April 30.—The monotony of a routine session of the lodge of Junior O. U. A. M. at Trent Saturday night was broken by the whizzing of bullets about the members' heads.

Started by the crashing of glass and the buzz of the leaden pellets, the members first sought shelter behind convenient obstacles and when the firing ceased dashed into the street to see who had fired the shots. The shooter or shooters had disappeared, however. No motive is known for the mysterious shots.

Today David Coldiron and a young man named Edwards were arrested by Sheriff Salley on suspicion that they knew something of the shooting. They will be given an examining trial tomorrow before Justice of the Peace Combs.

### ORDERS ROLL IN

Railroads Call for Equipments and Supplies.

New York, May 1.—Steel mills reported a sudden and unexpected increase in orders for railroad equipment and supplies received in the last two or three days, making the total for last week nearly 70,000 tons and for the month of April 162,000 tons. Export business was less. Railroad orders for locomotives and cars were larger, including ninety-three engines for the Southern railroad, but for the month of April the equipment showing was a poor one.

Bridge orders were especially light. Among the features of interest in the structural line was the awarding of a steel contract, 8,000 tons for the Continental Fire Insurance, in New York City, to Milliken Bros. Bids went in on 80,000 tons steel shapes for the elevated extension and plans for the Hell Gate bridge, now in the hands of fabricators, call for 35,000 tons.

## Atlanta Brood Coop

MADE OF HEAVY GALVANIZED IRON

We Claim for this Coop Many Advantages Over Any Other on the Market

**FIRST:** They are collapsable, and can be put away in the fall in a few minutes in a very small space and reassembled when needed in two minutes each.

**SECOND:** The sanitary features of these coops cannot be excelled, as the ventilation is perfect and the bottom can be removed in one minute without any trouble, quickly cleaned and replaced, without removing any other section of the coop, as there are no bolts, screws, hinges or fastenings to bother with. Lice or vermin will not harbor in galvanized iron, there being no crevices in which to secrete themselves and multiply nor for disease germs to find a lodging place. These coops are absolutely proof against Rats, Weasles, Minks, Skunks and other chicken eating animals. Government statistics show that rats destroy more chickens every year than every other agency.

**THIRD:** It is made of heavy Galvanized Iron and is as rigid as a wooden coop, but does not hold dampness, it is also absolutely weather proof, even in the most driving rain. It is as cheap as any wooden coop and has many advantages not found in them. The different doors can be set in an instant and will remain when placed until changed.

**FOURTH:** Made in two sizes with 8 and 9 inch revolving doors.

The manufacturers of Royal Baking Powder have always declined to produce a cheap baking powder at the sacrifice of quality.

Royal Baking Powder is made from pure grape cream of tartar, and is the embodiment of all the excellence possible to be attained in the highest class baking powder.

Royal Baking Powder costs only a fair price, and is more economical at its price than any other leavening agent, because of the superlative quality and absolute wholesomeness of the food it makes.

Mixtures made in imitation of baking powders, but containing alum, are frequently distributed from door to door, or given away in grocery stores. Such mixtures are dangerous to use in food. In England, France, Germany and some sections of the United States their sale is prohibited by law. Alum is a dangerous mineral acid, and all physicians condemn baking powders containing it.

Funniest Clowns on Earth are  
With The Robinson Famous Shows.

A good circus makes all the world akin—at least that portion of humanity within the reach of any big circus. It always has been thus and always will be as long as human nature is human nature.

A boy never forgets his first circus—neither does a girl forget it. It is one of the mile-stones that mark the altogether too fleeting years of childhood's career of innocent and harmless pleasure. What would a circus be without a band? What would it be without a clown?

The circus clown dates his origin back to the beginning of the circus itself, and from the immemorial he has been one of the most important features. During the growth and development he has by no means been left behind. He is funnier now and can do more tricks than ever before. In the old days one clown sufficed to satisfy the demand for the show-goers, but now it takes twenty-five for the Robinson Famous Shows. Nowadays the clown who could not do anything but grin and drive a donkey that played a tattoo with his hind heels on the dashboard of a little cart could not get a job. He must be versatile or look for another position.

The acrobatic work is only a small part of a clown's performance. There is scarcely a humorous phase

of life which the clowns do not touch or a heroic feature which they do not burlesque. This always delights the crowd, for one of the things which pleases an American audience is to see some one ridiculed.

It is the rough and tumble and apparently furiously abusive acts, knocks and slaps of the clown that invariably create the most laughter. The more they kick, pound and beat and club each other over the head, face and back, the more pleasing it seems to be.

It has been one of the best circuses on the road for years, but what would its vast array of circus talent amount to if it were not for the tireless work of the "funny fellows?" The presence of the clowns is essential. The hurlesque clowns, the rube clowns, the short clowns, the tall clowns, the graceful clowns, contingent of more than twenty-five with the Robinson Famous Shows.

Without the clown, the petite, pretty equestrian could not have his brief visit, the acrobats could not get their second breath, and the muscicians could not catch a moment's rest. Originally a "fillin'" to cheapen the salary list and to serve the above purposes, the circus fools feature with a circus and command liberal salaries. They are no longer used to fill in. All the clowns will be here with the big shows on May, 6, 1911 at Madisonville.

## How To Stop Stubborn Cough

We don't mean just stop the irritation in your throat—but cure the underlying cause.

Cough syrups cannot do this. It takes a constitutional tonic body builder to do the work properly—and cure you to stay cured. Vinol is the remedy you need.

### HERE IS PROOF

Mrs. Minnie Osgood, of Glens Falls, N. Y., writes: "After trying several remedies for a bad cough and cold without benefit, I was asked to try Vinol. It worked like magic. It cured my cold and cough and I gained in health and strength. I consider Vinol the most wonderful tonic and invigorator I ever saw."

If we cannot stop that cough with VINOL—our delicious cod liver and iron tonic—which is made without oil—we will not charge you a cent for the medicine you buy. This seems like a pretty fair proposition—and ought to be accepted. Don't you think so? With this understanding we ask you to try a bottle of VINOL.

Mortons Gap is all astir. The Baptist church there, under the leadership of Rev. P. D. Gordon, had 87 conversions in 13 nights. The revival was followed by a big baptizing on the fourth Sunday. Lee Daniel Thomas, the son of Brother and Sister L. W. Thomas, of Hecla, was instantly killed by the water bucket at the Hecla water shaft on Monday, the 24th. He had been to school that morning, but left at the morning recess. We sympathize with the bereaved parents.
